Subject: Kitchen

Hi Steve! Hope all is well (it seems so). I just spent an hour on the phone with Steve's cousin Shari sharing my kitchen experience with you as a designer and how much more she will get than just a guy selling cabinetry. I'm always skeptical to recommend someone since experiences always seem to vary but I felt so confident that you will not disappoint her. You are truly amazing at what you do, and you went way above and beyond for us. You were a key part in creating my amazing kitchen that I love so much. I even spoke with Shari about Joe from Capuano and about Luis the contractor.

I sincerely hope you get her business. I'm so sure she will thank me for my recommendation to trust you to give her a fantastic kitchen.

Jodi
