Subject: Kitchen Repair

Hello Steve,

I just wanted to drop you a line to say thank you for your help in completing my kitchen.

I realize that the problems with my kitchen were not of your creation but you were instrumental in helping to fix them with no financial gain to speak of. My wife and I are very happy with the work both you and Geoff have done for us and will recommend both of you should we know anyone looking for a kitchen to be redone. I only wish that I had you do the initial work on my kitchen and I am sure the problems I experienced would not have existed.

I will let you know when I am ready to do the cabinetry in my family room.

Thanks again.

Sincerely,

Marty Isaac
